

**Product:** VHH directed to Urokinase-type plasminogen activator receptor ( $\mu$ PAR)  
**Catalogue nr.:** QVQ55  
**Clone name:**

**Specificity:**  $\mu$ PAR recombinant protein was immunized in 2 llamas and VHH were selected by panning selections on the recombinant protein (unpublished data).

**Sources:** Recombinant monoclonal VHH

**Formulation:** Frozen 0.2  $\mu$ m filtered solution of VHH in PBS (standard)  
 VHH can be delivered in various formats for testing in new applications

**Storage:** Store at 4 oC or aliquoted and store at -20 oC (addition of 0.02% natrium azide is optional)

**Applications:** Elisa binding on recombinant protein has been tested.  
 Test samples are available for determining the functionality in new applications
